

Fuel your Brain with ProleevaMax™

Our product is a Nutraceutical specifically designed to fill nutrient gaps involved with chronic disorders.

How? ProleevaMax is a Nutraceutical that helps bring your nervous system back into balance by ensuring that your body has a healthy level of amino acids to restore and stimulate neurotransmitters that are used to control pain.

ProleevaMax addresses the underlying dietary and amino acid deficiencies associated with chronic pain and inflammatory disorders. If you are experiencing pain, you most likely have amino acid depletion. There are chemicals in your brain called neurotransmitters, that maintain and regulate many of the functions of your body, including how you experience pain. They also affect your mood, sleep, appetite, and even your sexual drive. These chemicals in your brain are only

kept in balance by having healthy levels of amino acids. When you have chronic pain, your body depletes these amino acids, and your pain increases. So, you must replenish these amino acids in your body in order to return the levels to normal, which leads to less pain. Ultimately, it will also have a positive impact on your sleep, mood, and other important bodily functions. Your body's ability to manage chronic pain and inflammation depends on having healthy amino acid levels.

ProleevaMax replaces vital Amino Acids depleted by Inflammation, Chronic Pain, and Fibromyalgia. ProleevaMax is designed to supply the nervous system with the fuel it needs to meet the increased demands of chronic pain and decrease inflammation!

Natural Ingredients

Our products have a unique combination of antioxidants and amino acids to replenish your body and lead to less pain.

Increases production in antioxidants! Antioxidants remove free radicals and protect your cells by decreasing inflammation and pain.

ProleevaMax users have reported better sleep, improved overall mood, and higher energy levels.

DOSAGE

FOR ADULTS ONLY: As a Nutraceutical, Take up to 4 capsules daily 2401 mg. ProleevaMax can be taken with or without food, although we recommend without to increase the absorption of key ingredients.

STORAGE

Keep tightly closed in a cool dry area 45-90°F (8-32°C), relative humidity, below 50%.

SIDE EFFECTS

ProleevaMax does not directly influence the pharmacokinetics of prescription drugs. Clinical experience has shown that administration of ProleevaMax may allow for lowering the dose of co-administered drugs under physician supervision. The most common adverse reactions of higher doses - from 15 to 30 grams daily - are nausea, abdominal cramps, and diarrhea. ProleevaMax contains less than 1 gram per dose of amino acids however, some patients may experience these symptoms at lower doses.

INGREDIENTS

Each serving contains a proprietary blend of 2401 mg of: Curcumin 95%, L-Arginine HCl, Matcha Green Tea Leaf Powder, Choline L-Bitartrate, 98% Japanese Knotwood Extract (Polygonum cuspidatum Extract (root)), Panax Ginseng Root Powder, Gamma-Aminobutyric Acid (GABA), Boswellia Extract (Boswellia serrata) 65% Boswellic Acid, 5-HTP (From Griffonia Seed Extract) 99%, L-Glutamine, L-Serine, Black Pepper Extract 95% Piperine, Vitamin B6 (Pyridoxine HCl).
